

GENEROSITY BUS INITIATIVE

An innovative approach to creating impact through practical and unconventional community-based approaches

In 2023, with the support of a few supporters and rotary clubs in Liberia, the USA, and the UK, we launched our "Radical Generosity Bus" Initiative for future young leaders in Liberia. This innovative initiative aims to address the lack of school buses in Liberia and offer unconventional opportunities for learning, giving, serving, and sharing.

GENEROSITY BUS INITIATIVE

An innovative approach to creating impact through practical and unconventional community-based approaches

Your involvement in our generosity bus program can make a significant difference. So far, we have managed to provide free transportation to marginalized students from kindergarten through 12th grade hailing from over 32 different communities. However, with your support as a strategic alliance or partner, we can expand our reach further. There are other ways volunteers can step up to contribute to our cause and help us transform more lives:

- 1. Community Professionals:** Professionals from various fields, such as Supreme Court Justices, CEOs, Ministers, Senators, or Deans at Universities, can volunteer as service agents on the bus. Students will be inspired by these professionals' personal stories and encouraged to become change agents.
- 2. Bus Monitors:** This initiative encourages professionals and parents to volunteer as bus monitors and inspirational agents-- becoming highly motivating partners for inspiring students.
- 3. GivingEveryTuesday:** Each Tuesday, students learn about a topic aligned with GivingTuesday's approach to volunteering, giving, and leading and are encouraged to implement what they've learned into their daily lives. Volunteers can also help in this role.
- 4. GiveX:** Give X is a dynamic program that encourages individuals to contribute to YesLiberia's mission by offering various forms of support, such as monetary donations, computers, skills, time, and more. The "X" in "Give X" represents the limitless possibilities of what can be contributed to assist YesLiberia in its noble endeavors. This inclusive program invites anyone to contribute in their own unique way, fostering a sense of collective responsibility and empowerment in making a positive impact on the community served by YesLiberia.
- 5. Bus Chartering for Sustainability:** Our Radical Generosity Bus Initiative allows other NGOs/CSOs, schools, and community networks to charter the bus on weekends for a nominal fee. This helps us cover operating expenses and maintenance costs for the bus while allowing local NGOs to affordably expand their work at a lower financial cost.
